PROJECTS

EV Charging Station Finder | *React · FastAPI · Python*

Full stack app displaying real EV charging stations in Morocco. Features city search, filtering, analytics dashboard with charts and top 10 ranking. Deployed on Railway and Vercel.

Live: <https://ev-charging-frontend-ebon.vercel.app/>

Books Scraper & Analyzer | *Python · BeautifulSoup · Requests*

Web scraper that collects 1000 books from 50 pages, extracts prices and titles, saves to CSV and generates a price analysis report.

GitHub: <https://github.com/Ahmedbht/books-scraper->

Discover Tetouan | *js · Html · Css*

Tourist guide website for the city of Tétouan, launched and ranked on Google Search under "Discover Tetouan". Features local attractions, culture, and travel tips. Currently migrating to React.

Live: DiscoverTetouan.com

Physio Nord | *REACT · CSS*

Professional landing page for a real physiotherapy and rehabilitation center in Tétouan. Features video hero section, services with photos, about section with stats and smooth scroll animations.

Live: <https://physio-nord-8jpw.vercel.app/>

Tetouan Doctor | *Next.js · Django REST Framework · SQLite*

Full stack medical appointment booking platform. Patients browse doctors by specialty, view available slots, and book appointments. Doctors manage their schedule via a personal dashboard with JWT-based authentication.

Live: <https://tetouan-doctor.vercel.app/>

Titawen | *Next.js · Django*

Full stack management system for a local dairy brand : inventory, orders, and reporting. Landing page features an AI-powered chatbot (Groq API) that answers customer questions about products and services.

GitHub: <https://github.com/Ahmedbht/titawen-frontend>

Opticloud | *PHP · Next.js*

Optical store management SaaS : client records, prescriptions, inventory, and a modern landing page.

GitHub: <https://github.com/Ahmedbht/opticloud>

Nettocar | *PHP · MySQL*

Web-based car wash management system. Features client management, billing, service tracking and statistics dashboard.

GitHub: <https://github.com/Ahmedbht/Nettocar>

Password Manager | *Java · JavaFX · AES Encryption*

Desktop application for managing passwords securely. Features include adding, editing, deleting and searching passwords, random password generation, and AES-encrypted local storage using JSON.

GitHub: <https://github.com/Ahmedbht/password-manager>
